

COMPACT LAMINATE

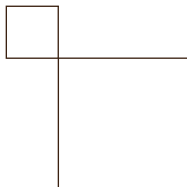

COLLECTION 2010

Featured Compact:
GWA 738 Oak

AS SOLID AS IT LOOKS

As Asia's leading manufacturer of high pressure laminates, GREENLAM® is expanding its offerings for your every need. Durable and decorative, GREENLAM® Compact Laminates are just the right choice to build your ideal interior. These reinforced laminates are self-supporting, which means they can be used across a range of applications. They also come in a wide range of spectacular colours to suit your fancy.

WHAT MAKES LAMINATES COMPACT

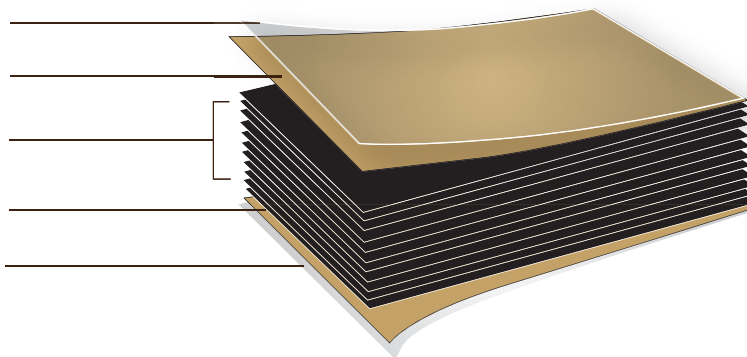

Decorative surface papers are first soaked in melamine resins. Next, they are pressed over kraft paper core sheets. These are then bound together with thermosetting resins, to be cured at a pressure of 9Mpa and temperature of 150°C. The finished sheets are finally trimmed and the GREENLAM® Compact Laminates are ready for use.

Tissue overlay (for print decors)
soaked in melamine resins
Solid or print design paper layers

GETTING THE MOST OUT OF COMPACT LAMINATES

Engineered to meet special requirements, GREENLAM® Compact Laminates boast of superior qualities. Take for example, its exceptional self-supporting properties and its enhanced stability. Or how it's abrasion-resistant, water-resistant and fire-resistant. At the same time, it's also resistant to harmful chemicals and organic solvents. Plus, it emits low levels of harmful gases and fumes. The best part? All these wonderful qualities are available in GREENGUARD standard thicknesses ranging from 2mm to 18mm*.

* Other thicknesses available upon request.

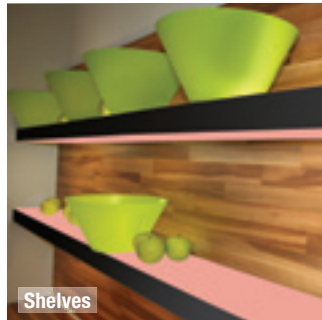

HOW COMPACT LAMINATES CAN BE USED

File Lockers

Desks

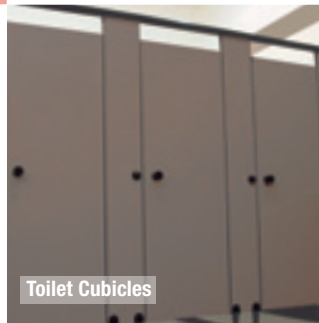

Shelves

Table Tops

Kitchen Tops

Toilet Cubicles

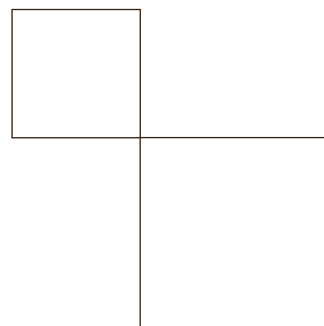

GREENLAM® Compact Laminates are ideal for both horizontal and vertical surfaces that need to be functional, durable and decorative. They are typically used in kitchen tops, desks, doors, wall cladding partitions, changing rooms, toilet cubicles, table tops, shelves and lockers, but the possibilities don't just stop there. In fact, all our laminates are GREENGUARD Children and Schools certified, which means they're good to be used in schools, daycare and healthcare facilities. Easy to assemble with no edging or adhesive needed, compact laminates offer simple, stylish solutions for everyday life.
